FL3X Config 1.4 – available now.

Göppingen, 20.01.2025 – FL3X Config 1.4

STAR® presents – FL3X Config 1.4 with expanded functionality.

Create gateway configurations or restbus simulations with just a few clicks and without extensive programming knowledge. Simple drag & drop commands in conjunction with the graphical user interface enable intuitive operation. FL3X Config supports all common bus systems such as CAN-FD/-HS, FlexRay, Standard Ethernet, Automotive Ethernet (100BASE-T1, 1000BASE-T1, 10BASE-T1S), LIN and SENT. Save your created setups in FL3X Config and then open them in FL3X Config mobile - so the contents are the same on both systems.

With the newly developed user library “RAW Gateway”, an innovative gateway concept was integrated into FL3X Config, which enables the direct routing of an Ethernet data stream through an FL3X device or an FL3X system. This means that the payload can be manipulated directly. This feature makes it possible to use missing information or even incorrect Ethernet databases to a certain extent to create a project.

The recently released update to the FL3X Config 1.4 software supports the latest database formats and database images.

Using a command set in the PC HW interface, it is possible to start and stop manipulations independently of each other, which leads to an increase in usability in the area of manipulation.

Further information is available on our website.

FL3X

FL3X Config

Das Tool für die Analyse, Manipulation und Tests von automobilen Bussystemen ist ab sofort für PC und Mobile verfügbar.

FL3X Config ist schnell einsatzbereit und kann ohne umfangreiches Expertenwissen verwendet werden. Neue Konfigurationen können schnell und einfach erstellt und gespeichert werden. Konfigurationen können zwischen PC und Mobile APP ausgetauscht werden.

BU: FlexConfig 1.4 – The new release offers a variety of new features and improvements.

About STAR COOPERATION

Networked expertise and passion to help you succeed: since 1997, STAR COOPERATION has been assisting companies of all sizes from a wide range of industries in planning and developing their projects efficiently and implementing them successfully. Customers benefit from our interdisciplinary expertise and synergies in the areas of CONSULTING, ELECTRONICS, ENGINEERING, IT, LOGISTICS and MEDIA. Our experts have extensive practical experience, helping STAR® to provide innovative ideas and sophisticated solutions – tailored precisely to our customers and their specific project needs. This enables them to make best use of their resources and to improve every day.

STAR COOPERATION is certified according to the management systems DIN EN ISO 9001:2015, ISO 50001:2011, ISO 14001:2015 and ISO 45001:2018.

Pooled expertise in ELECTRONICS: the portfolio of services offered by our experts in vehicle electronics includes a wide range of solutions for workshops, production and development, all for the testing and validation of automotive E/E systems in any voltage and power range and for any bus system.

We look forward to receiving a sample copy.
